For over 100 years, Ericson has engineered and manufactured the safest portable power distribution and temporary lighting products on the market. Designed for superior durability and convenience, our engineered solutions offer customers the best tailor-made products to fit their specific needs. No one does it better.

We pride ourselves on providing distributor partners, industrial end users, and OEM customers all over the world with durable, industrial-grade products that protect the workforce from work site hazards, increase productivity, and have a lower cost of ownership than other options on the market. Our unique array of products allows Ericson to offer our customers a comprehensive line of portable power and lighting solutions all in one place. Ericson is a customer-driven ISO9001 certified organization focused on high quality and continual improvement and we strive to meet or exceed our customer’s expectations. From initial application consultation, to design and manufacturing, to product performance in the field, we aim to consistently impress.

Thank you for considering Ericson products for your company.
Ericson Manufacturing is located 20 miles east of Cleveland, Ohio.

e-Cart® Jr. 15-45 kVA
Power Transformer Unit
ericson.com/ecartjr

- 15 kVA models cETLus listed for U.S. and Canada
- 1Ø (15-25 kVA) or 3Ø (30 kVA) options
- Rated NEMA 3R in-use including main disconnect switch
- Combo load center with GFCI circuit protection
- Easy to move, narrow frame fits through a standard 36” doorway
- Optional 50A receptacle for connection to smaller PDUs
- Other NEMA configuration receptacles available
- Product customizations are available upon request
- Visit our website to view full standard sku listings

Power Transformer Unit

[ericson.com/ecart](http://ericson.com/ecart)

- cETLus listed for U.S. and Canada
- Industrial duty aluminum frame with lifting eyes, wheels or stands
- 1Ø or 3Ø NEMA 3R 480V or 600V 60Hz ventilated transformer
- NEMA 3R load center with GFCI protection installed, sized per transformer
- NEMA 3R fused primary disconnect, sized per transformer
- Easy to move, narrow frame fits through a standard 36” doorway
- Choice of solid 10” rubber tires, (2 steering with brakes, 2 fixed) or stationary legs
- Other NEMA configuration receptacles available, combo enclosure styles are customizable (see examples below)
- Product customizations are available upon request

Economy Grade
Commercial Grade Wiring Devices
ericson.com/economywd

E515-PL, E515-CL
- cULus listed for U.S. and Canada
- Body and shell are thermoplastic nylon
- Strain relief clamps furnished with removable inserts to accommodate varying cable diameters
- Designed for indoor use and dry locations
- Operating temperature range -40°C to 70°C
- Select models lighted to provide power-on indication

E515P, E515C
- cULus listed for U.S. and Canada
- Body and shell are thermoplastic nylon
- Strain relief clamps furnished with removable inserts to accommodate varying cable diameters
- Designed for indoor use and dry locations
- Operating temperature range -40°C to 70°C

Perma-Link®
Industrial Grade Wiring Devices
ericson.com/industrialwd

- UL listed and CSA certified
- Industrial grade, indoor rated cord clamp wiring devices
- Withstands high impact, corrosion, oils, greases, solvents and other chemicals across -20°C to 100°C
- Internal cord seal keeps out dust, dirt and mud
- Available individually or on factory assembled cordsets
- Plug and connector covers may be interchanged for a weather resistant connection
- Available in multiple NEMA configurations
Perma-Grip™
Industrial Grade Wiring Devices
ericson.com/industrialwd

- UL listed and CSA certified
- Industrial grade, indoor rated cord grip wiring devices
- Quick field assembly, no cable clamp screws to tighten
- Cord grip won’t pinch cable like standard clamps thus providing longer use and less cable replacement
- Compression cord grips and sealing grommets included
- Withstands high impact, corrosion, oils, greases, solvents and other chemicals across -20° C to 100° C
- Available individually or on factory assembled cordsets
- Plug and connector covers may be interchanged for a weather resistant connection
- Available in multiple NEMA configurations

Perma-Tite®
Extreme Duty, Watertight Wiring Devices
ericson.com/watertightwd

- UL, ETL listed and CSA certified
- Extreme industrial duty, outdoor rated, watertight wiring devices
- Double tongue & groove sealing system provides environmental protection of NEMA Type 4, 4X, 6, 6P, IP67, & IP69K
- Devices resist high-pressure hose down of 1,500 psi
- Plug & connector bodies made with PBT chosen for its high resistance to moisture absorption, high voltage arcing and carbon tracking
- Removable/replaceable self-retained sealing cap provided with connector to keep out contaminants when not in use
- Available in multiple NEMA configurations

*Each device includes a set of grommets to accommodate a range of cable sizes
SmartMonitor®
Visual Diagnostic Wiring Devices
ericson.com/monitor

- cETLus listed for U.S. and Canada
- Available in Perma-Link®, Perma-Grip, and Perma-Tite® models
- 24/7 diagnostic technology with LED indicator
- Makes OSHA Assured Equipment Grounding Conductor Program compliance quick and cost effective
- Monitors 7 conditions including ground continuity, reverse polarity, hot on ground, and open neutral conditions
- Green LED light indicates a proper wiring connection, a red LED light indicates a faulty wiring connection
- Available in multiple NEMA configurations
Perma-Kleen™
Antimicrobial Watertight Wiring Devices
ericson.com/kleen

- UL listed and CSA certified
- Antimicrobial additives embedded in all polymer
- Inhibits growth of bacteria, molds, mildews and fungi
- Antimicrobial additive resistant to scuffing and cleaning
- Independently tested and certified
- Double tongue & groove sealing system provides environmental protection of NEMA Type 4, 4X, 6, 6P, IP67 & IP69K
- Devices resist high-pressure hose down of 1,500 psi
- Available in multiple NEMA configurations

Escherichia (E. coli) - Log Reduction > 4.8, reduces surface bacteria by > 99.99%
Staphylococcus (Staph), MRSA - Log Reduction > 3.9, reduces surface bacteria by > 99.98%
Listeria monocytogenes - Log Reduction > 4.3, reduces surface bacteria by > 99.99%
Salmonella - Log Reduction > 3.6, reduces surface bacteria by > 99.97%

Untreated E. coli after 24 hours
Treated E. coli after 24 hours

Receptacles & Flip Covers
Commercial & Industrial Grade
ericson.com/flipcovers

Blue LC Series
Commercial Grade

- Single flip cover – no receptacle
- Universal foam gasket to accommodate 15, 20, and 30A receptacles
- Designed to be mounted to a flat surface
- Accommodates Lockout/Tagout (LOTO)

FS Series
Industrial Grade

- UL listed and CSA certified
- Single flip cover – with or without receptacle
- Weather resistant boot seals around an Ericson Perma-Tite®2 plug
- Mounts easily to any FS/FD box or any flat surface
- See page 26 for all 15, 20, and 30A NEMA configuration options

PWDX Series
Industrial Grade

- cULus listed for U.S. and Canada
- Duplex flip covers – with receptacles
- Weather resistant boot seals around an Ericson Perma-Tite®2 plug
- Mounts easily to any FS/FD box or any flat surface
- See page 26 for all 15 and 20 Amp NEMA configuration options
- Accommodates Lockout/Tagout (LOTO)

Wire Mesh Grips
Industrial Grade
ericson.com/grips

Pulling Grips
- Reusable pulling tool for light to heavy cables

Support Grips
- Hold and support vertical or horizontal cables, metal rods and tubing
- Prevents cable pull-out by supporting the weight

Cord Grips
- Protects cable when exposed to moisture or submersion
- Eliminates fatigue points and prevents cable pull-out
- Indoor and outdoor use

Strain Relief Grips
- Prevents damage caused by cable pull-out
- Reduces tension from being transmitted to joints
- Minimizes stress and strain on conductors at the point of wire termination

Deluxe Support Grips
- Prevents damage caused by cable pull-out
- Reduces tension from being transmitted to joints
- Minimizes stress and strain on conductors at the point of wire termination

I-Grips
- Easy to attach
- Controls cable arc-of-bend
- Provides heavy duty strain relief for plugs and connectors
Custom Power Drops & Strings
Industrial Grade

- Provides convenient access to power at each work station
- Reduces trip hazards
- Watertight solutions for wash down and wet environments
- Antimicrobial PermaKleen™ solutions for food & beverage processing plants
- Single power drop and multi-drop festoon systems available
- Both single- and multi-receptacle options
- Add cable strain reliefs for demanding applications
- Blunt primary end for hard-wire into junction box or factory configured for easy plug ‘n play installation
- Smart Monitor™ connector options provide additional safety by continuously checking for ground path integrity
- Premium cable options available
- Product customization available

Power Supply Cables
Commercial & Industrial Grade

- Power supply cables and interconnecting cables for various OEM applications
- Antimicrobial Perma-Kleen™ solutions for food-processing equipment
- Solutions for all common plug and receptacle types and configurations
- Watertight plug options for equipment used in marine and outdoor/wet environments
- GFCI options for worker safety
- Smart Monitor™ plug options help ensure equipment is connected to proper ground path
- Premium cable options available

Protector Series – Commercial Grade
- Select items cULus listed for U.S. and Canada
- Meets NEC & OSHA construction site requirements
- Automatic power-up
- Open neutral and grounded neutral protection
- Factory wired line & load side using 12/3 SJTW cable
- User can re-wire load side cord
- Works on 2-wire or 3-wire circuits
- Class A with open neutral protection

XG2 Series – Industrial Grade
- cULus listed for U.S. and Canada
- Meets NEC & OSHA construction site requirements
- Automatic & manual power-up models are available
- Works on 2-wire or 3-wire circuits
- Available in 15A and 20A models
- Up to 1.5 horsepower switch rating
- NEMA type 6P polycarbonate enclosure is watertight
  and corrosion, impact, and UV light resistant
- Available with factory-wired and molded-on device
- Class A with open neutral protection

Made in the USA C UL LISTED
1075 Series Panel Mount GFCI

- cULus listed for U.S. and Canada
- Provides open neutral protection
- Quick and easy field installation into temporary panels and work boxes
- Compact & portable, this unit is easy to use, store and transport
- Unique vibration resistant design
- Works on 2-wire or 3-wire circuits
- Meets OSHA construction site requirements
- Fast response trip time; less than .025 seconds
- Molded polycarbonate enclosure is corrosion and impact resistant and stands up to the toughest work site conditions
- Manual and automatic power-up models available
- Class A with open neutral protection

1075 hole configuration

1075-AR or 1075-MR

1060 Series Multiple Outlet GFCI

- Polycarbonate, impact resistant enclosure retains its properties under the most extreme environmental conditions
- Spring-loaded flip lids protect outlets from work site contaminants when not in use
- Unit comes standard with extra hard usage #12/3 SOOW cable
- Meets OSHA construction site requirements
- Fast response trip time; less than .025 seconds
- Class A with open neutral protection
- Tamper proof enclosure
- Unmatched vibration resistance ideal for OEM applications
- Multiple NEMA configurations available

Ericson's best-in-class load rating TuffTraxx cable and hose protectors are getting a new look...YOURS! We are now offering custom logo marking and color options to make completely branded pieces of equipment for your workplace.

Your custom artwork will replace the TuffTraxx logo on the lid and the Ericson logo on the base unit using an insert that is placed into the mold (not a glued-on plaque), making this a permanent way to add your brand to the product. Coupled with custom color options for both the base and the lid and you have a fully branded cable and hose protector.

Flex Rig
Light Industrial Retractable Cable Reel
ericson.com/flexrig

Listing: cULus listed for U.S. and Canada
Flange Size: 12” diameter
Construction: Reinforced steel construction, durable white powder coated finish, and black nylon hubs
- Separate mounting base plate for easiest installation on the market
- 4-roller cable guide designed for a quick positional change
- Grounded slip ring assembly for safety
- Adjustable ball stop included
Termination: 6 ft. feeder cord with molded plug
Cable Type: Installed with 12 or 16 gauge type SJOW 300V cable
Environmental: Rated NEMA 2 for indoor use
Electrical Ratings: Max rating of slip ring is 20A, 125V
Options: Secondary attachment options: blunt, a quad rubber box, molded tri-tap or single connector

Range 35 & 50 ft. Applications Lift or drag

**4000 Series**

Industrial, Retractable Cable Reel

[ericson.com/industrial-reels](http://ericson.com/industrial-reels)

**Listing**: UL listed and CSA certified

**Flange Size**: 12” diameter

**Construction**: Heavy all-steel with durable yellow powder coated finish
- Formed steel stand with multiple mounting holes
- 4-roller cable guide - adjustable to one of 12 positions
- Ratchet can be engaged for positive lock or disengaged for constant tension
- Safety chain hole provided for overhead mounting
- Adjustable ball stop included
- Grounded slip ring assembly for safety

**Termination**: 6 ft. feeder cord (3 conductor - molded plug, all others - blunt cable)

**Cable Type**: Installed with type SJOW/SJEOW 300V or SOOW 600V cable

**Environmental**: Reel housing is rated NEMA 4 for Indoor & Outdoor. Reel is derated to NEMA 2 with any reel attachment or with a molded plug on primary w/ SJ 3 conductor cable.

**Electrical Ratings**: Max rating of slip Ring = 30A, 600V

**Options**: Stretch or retrieve application, black or white powder coat finish, secondary attachments, pivot base, or Perma-Kleen™ antimicrobial cable

**Range**: 20–50 ft.

**Applications**: Lift or drag

5000 Series
Industrial, Retractable Cable Reel
ericson.com/industrial-reels

Listing: Blunt products UL listed and CSA certified
Flange Size: 14" diameter
Construction: Heavy all-steel with durable yellow powder coated finish with nylon drum
  • Formed steel stand with multiple mounting holes
  • 4-roller cable guide–adjustable to one of 12 positions
  • Ratchet can be engaged for positive lock or disengaged for constant tension
  • Safety chain hole provided for overhead mounting
  • Adjustable ball stop included
  • Grounded slip ring assembly for safety
Termination: 6 ft. feeder cord
Cable Type: Installed with type black SOOW 600V cable
  Available in 16/6, 16/8, 16/10, 16/12, 14/6, 14/8, 14/10, 12/3, 12/4, 12/6, 12/8, 10/3, 10/4, 10/6
Environmental: Rated NEMA 4 for indoor and outdoor
Electrical Ratings: Max rating of Slip Ring = 35A, 600V
Options: Stretch or retrieve application, black or white powder coat finish, secondary attachments, pivot base, or Perma-Kleen™ antimicrobial cable

Range 20–80 ft. Applications Lift or drag

6000 & 7000 Series
Industrial, High Capacity Retractable Cable Reels
ericson.com/industrial-reels

Listing: cULus listed
Flange Size: 6000–19” diameter, 7000–24” diameter, other diameters up to 36”
Construction: Heavy all-steel with durable yellow powder coated finish
- Ratchet can be engaged for positive lock or disengaged for constant tension
- Formed steel stand with multiple mounting holes
- 4-roller cable guide–adjustable to one of 12 positions
- Safety chain hole provided for overhead mounting
- Adjustable ball stop included
- Grounded slip ring assembly for safety
Termination: 1” NPT Female Feeder Hub for Field installation to Slip Ring
Cable Type: Installed with type SOOW 600V cable
Environmental: Rated NEMA 4 for indoor and outdoor
Electrical Ratings: Call for details
Options: Stretch or retrieve application, black or white powder coat finish, secondary attachments spool guard rail, spool lock, marine duty

Range 20–200 ft. Applications Lift or drag

Industrial, Hazardous Location Retractable Cable Reel

Listing: Blunt products UL listed
Flange Size: 14” diameter
Construction: Rugged fabricated steel with gray epoxy finish and cast aluminum construction
- Formed steel stand with multiple mounting holes
- 4-roller cable guide-adjustable to one of 12 positions
- Ratchet can be engaged for positive lock or disengaged for constant tension
- Safety chain hole provided for overhead mounting
- Adjustable ball stop included
- Grounded slip ring assembly for safety
- Threaded junction box and slip ring enclosure
Termination: 6 ft. feeder cord

Cable Type: Installed with type SOOW 600V cable

Environmental: Class I Division 1, Groups C & D (flammable gases or vapors)
- Class II Division 1, Groups E, F, & G (combustible dusts)
- Class III Division 1 (easily-ignitable fibers or flyings)
- Class I Zone 1: AEx d IIB, EX d IIB
- Conforms to NEMA 9 and NEMA 4 (IP56) standards
- Select models UL listed

Electrical Ratings: Max rating of Slip Ring = 35A, 600V

Options: Stretch or retrieve application, LED XP hand lamp attachment
- flop-over guide kit, or pivot base

Range 20–80 ft. Applications Lift or drag
SDR Series—Static Discharge Grounding Reel
Industrial, Hazardous Location Retractable Cable Reel

Flange Size: 6.25” diameter
• Built to NEC standards

Construction: Compact, all steel unit with 100 Amp grounding clamp
• Red epoxy finish
• Floor and ceiling mount
• ⅛” diameter steel aircraft cable
• Resistance not exceeding 0.3 Ohms

Options: Automatic locking ratchet with lockout feature for constant tension
• Available in double cable “Y” design to ground 2 places at once

Range 25 & 50 ft.
Applications Ericson’s SDR reels ground potentially dangerous static electricity in hazardous areas, such as refueling stations, fuel trucks, fuel tanks, aircraft, and similar applications

Flange Size: 14” diameter
Construction: Heavy all-steel construction with durable yellow powder coated finish with black nylon drum
• Formed steel stand with multiple mounting holes
• 4-roller cable guide—adjustable to one of 12 positions
• Adjustable ball stop included
• 100A grounding clamp
• 3/32” diameter orange nylon steel aircraft cable
• Automatic locking ratchet with lockout feature for constant tension
• Resistance not exceeding 2 Ohms

Environmental: Rated NEMA 4

Range 75 & 100 ft.
Applications Ericson’s SDR reels ground potentially dangerous static electricity in hazardous areas, such as refueling stations, fuel trucks, fuel tanks, aircraft, and similar applications
Pushbutton Pendant Stations
5500 Series Industrial Grade

- NEMA rated 1, 3, 4, 4X and 12 (depending on model)
- IP65 suitability enclosure ratings
- Available in 2 to 12 button configurations
- Single, 2-speed, and 3-speed models available
- Neoprene boots surround buttons to seal out dirt and moisture
- 2-piece enclosure simplifies field wiring
- Soft pressure and positive indent switches provide optimum tactile feedback so you can feel when switch has been engaged
- Contacts rated at 5A/120VAC and 5A/240VAC
- 2 Amps at 12V/24DC
- Up to 100 g shock resistance
- Ambient temperature rated 5°F to 160° F (-15° to 70°C) operation (model 5503 rated to 50°C/122°F)

2- and 3-Wire Commercial String Lights

- UL or cULus listed for U.S. and Canada
- Meets OSHA construction site requirements
- Meets NEC/CEC requirements for temporary lighting
- Designed for applications that require rapid set-up and tear down
- Full threaded screwshell to ensure proper contact*
- Easy relamping with non-conductive, snap-open cage guard
- Built-in hanger for easy installation with messenger cable or hooks
- Part numbers 142100 and 14250 are packaged “ready to lamp” with guards attached
- Product customizations are available upon request

## Industrial Grade

3-, 4- and 5-Wire Heavy Duty String Lights

ericson.com/industrial-sl

- UL listed and CSA certified
- Meets OSHA, NEC/CEC compliance
- Full threaded screwshell to ensure proper contact
- Designed for applications that require rapid set-up and tear down
- String lights available in 50ft. and 100ft.
- String lights come standard with watertight NEMA plug and connector
- Power drops between lamps available
- Guards sold separately
- Product customizations are available upon request

Linear LED Industrial Grade String Light

- SL11-: 1 ft. LED length, SL22-: 2 ft. LED length
- Low profile, streamlined design for easy insertion/extraction
- NEMA 3R, 4X, and 6P rated
- Feed-thru connectivity
- Available in 200 and 360 degree beam angles
- High output LED light engine providing 165+ lumens per watt
- Color temperature = 5000K, color rendition > 80+
- Unique LED module provides theft deterrence
- Patent D786493, D836238, and other patents pending
- cETLus listing pending
- Product customizations are available upon request

LED Explosion Proof
Low Voltage String Lights
ericson.com/haz-sl

- cETLus listed for U.S. and Canada
- Class I & II, Div 1 & 2, groups C & D and F & G, explosion proof
- 12VAC string light with Class I, Div 1 Killark style plug
- 8 W, 12 V LED bulbs deliver 500 lumens
- Aluminum anti-spark guard
- Tempered glass globe provides 360° illumination
- Rubber bumper protects lamps during use
- Multiple string light drop configurations available
- Combine with portable transformer for a complete low voltage solution

### Portable Transformer
ericson.com/lv-transformer

- cETLus listed for U.S. and Canada
- Class I, Div 2, non-incendive
- NEMA 3R polycarbonate enclosure with convenient carry handle
- 120VAC 60Hz to 12VAC step down, rated at 400VA
- Quad secondaries provide 12VAC power to 4 receptacles
- Each receptacle can supply power to 10-drop LED string light
- Class I, Div 1 rated decontactor-style receptacle
- Product customizations are available upon request

LED Hand Lamp

- Industrial grade, LED hand lamp designed for rugged environments
- Environmental ratings: NEMA 3R (IP24), 4X (IP56), & 6P (IP67)
- High output LED light engine providing 165+ lumens per watt
- Available in 200 and 360 degree beam angles
- Unique LED module provides theft deterrence
- 50,000-hour lamp life
- Patent D836238
- cETLus listing pending
- Custom cable printing available
- Product customizations are available upon request

1917, 1918, & 1950 Series
Low Voltage Spot & Flood Lighting

- Impact resistant, non-glass lens for food & beverage processing environments
- Large rubberized cushion will not mar or scratch surfaces
- Optional weather-proof switch
- Spot light or flood light models available
- Optional 120V to 12V rubberized in-line transformer
- Nylon, non-metallic body
- Can be mounted to a cable reel as an accessory

### 1917 Spot Light

- **Part Number**: 1917-12
- **Electrical Rating**: 120 V / 60 Hz
- **Primary Cord Length**: 4 ft.
- **Secondary Cord Length**: 50 ft.
- **Cable Type**: 16/3 SOOW
- **Plug**: NEMA 5-15
- **Bulb Type**: #4405 / 30W
- **Beam Angle**: 9°
- **Color Rendition**: 95
- **Color Temperature**: 2700 K
- **On/Off Switch**: No

### 1950-12 Spot Light

- **Part Number**: 1950-12
- **Electrical Rating**: 120 V / 60 Hz
- **Primary Cord Length**: 4 ft.
- **Secondary Cord Length**: 50 ft.
- **Cable Type**: 16/3 SOOW
- **Plug**: NEMA 5-15
- **Bulb Type**: #4405 / 30W
- **Beam Angle**: 15°
- **Color Rendition**: 95
- **Color Temperature**: 2700 K
- **On/Off Switch**: No

### 1917 LED-12

- **Part Number**: 1917LED-12
- **Electrical Rating**: 120 V / 60 Hz
- **Primary Cord Length**: 4 ft.
- **Secondary Cord Length**: 50 ft.
- **Cable Type**: 16/3 SOOW
- **Plug**: NEMA 5-15
- **Bulb Type**: LED / 9W
- **Beam Angle**: 30°
- **Color Rendition**: 90
- **Color Temperature**: 5500 K
- **On/Off Switch**: No

### 1917 LED-12S

- **Part Number**: 1917LED-12S
- **Electrical Rating**: 120 V / 60 Hz
- **Primary Cord Length**: 4 ft.
- **Secondary Cord Length**: 50 ft.
- **Cable Type**: 16/3 SOOW
- **Plug**: NEMA 5-15
- **Bulb Type**: LED / 9W
- **Beam Angle**: 30°
- **Color Rendition**: 90
- **Color Temperature**: 5500 K
- **On/Off Switch**: Yes

### 1950-12 CF³

- **Part Number**: 1950-12 CF³
- **Electrical Rating**: 12 V AC
- **Primary Cord Length**: 50 ft.
- **Secondary Cord Length**: None
- **Cable Type**: 16/3 SOOW
- **Plug**: NEMA 5-15
- **Bulb Type**: Crowsfoot / #4405 / 30W
- **Beam Angle**: 15°
- **Color Rendition**: 95
- **Color Temperature**: 2700 K
- **On/Off Switch**: No

### 1918 Spot Light

- **Part Number**: 1918-12
- **Electrical Rating**: 120 V / 60 Hz
- **Primary Cord Length**: 4 ft.
- **Secondary Cord Length**: 50 ft.
- **Cable Type**: 16/3 SOOW
- **Plug**: NEMA 5-15
- **Bulb Type**: #4406 / 30W
- **Beam Angle**: 80°
- **Color Rendition**: 95
- **Color Temperature**: 2700 K
- **On/Off Switch**: No

### 1918 LED-12

- **Part Number**: 1918LED-12
- **Electrical Rating**: 120 V / 60 Hz
- **Primary Cord Length**: 4 ft.
- **Secondary Cord Length**: 50 ft.
- **Cable Type**: 16/3 SOOW
- **Plug**: NEMA 5-15
- **Bulb Type**: LED / 9W
- **Beam Angle**: 60°
- **Color Rendition**: 90
- **Color Temperature**: 5500 K
- **On/Off Switch**: No

### 1918 LED-12S

- **Part Number**: 1918LED-12S
- **Electrical Rating**: 120 V / 60 Hz
- **Primary Cord Length**: 4 ft.
- **Secondary Cord Length**: 50 ft.
- **Cable Type**: 16/3 SOOW
- **Plug**: NEMA 5-15
- **Bulb Type**: LED / 9W
- **Beam Angle**: 60°
- **Color Rendition**: 90
- **Color Temperature**: 5500 K
- **On/Off Switch**: Yes

---

1. Based on a scale from 1-100, 100 equals to sunlight
2. Comes with watertight crowsfoot plug for CF series transformers
1948 Vapor-Gard®
Industrial Duty, Low Voltage Hand Lamps

- Molded handle impervious to impact and resistant to work site chemicals
- Glass globe is heat and impact resistant and threads into handle sealing bulb and socket
- Guard is constructed out of heavy-gauge steel wire and finished with a Zinc-Chromate plating to resist corrosion
- Quick latch 703 guard makes bulb changes easy
- Nut and grommet system provides both cord strain relief and protection from moisture/dirt
- Pre-wired models come with 14/3 SOW cord and a watertight plug
- Combine with portable transformer for a complete low voltage solution
- Product customizations are available upon request

1. Voltage is determined by the bulb used
2. Non-NEMA crowsfoot configuration, 15/10 Amps, 125-250 Volts, 1Ø

Portable Transformer

- Transformers convert 120 VAC/60Hz line voltage to 12 VAC
- Corrosion resistant enclosures are made from non-conductive resin that is resistant to impact and jobsite chemicals
- Outlets operate independently of each other – 4 x 100VA outputs
- Circuit breakers wired individually to each receptacle and operate independently of each other – if one circuit opens the others continue to operate

1924 Series
Low Voltage Hand Lamp with In-Line Transformer
ericson.com/low-voltage-hl

- Step-down transformers reduce 120 VAC line voltage to 12 VAC
- Extra-thick walled rubber housing with non-corrosive stainless steel hardware protects transformer from jobsite contaminants
- Transformers incorporate a grounded metal shield between primary and secondary windings to ensure the two voltages are isolated providing an added degree of protection
- Each transformer is subjected to a factory dielectric test of 1600 volts between primary and secondary windings and between each winding and ground to ensure safety

## HL Series

### LED Low Voltage Hand Lamp

**ericroson.com/910-lv**

- Industrial grade, LED hand lamp designed for rugged environments
- Environmental ratings: NEMA 3R (IP24), 4X (IP56), & 6P (IP67)
- High output LED light engine providing 1440 lumens at 10 watts for a luminous efficacy of 144 lumens/watt
- 200 degree beam angle
- Unique LED bulb provides theft deterrence
- 50,000-hour lamp life
- Field serviceable
- Patent pending
- Product customizations are available upon request

2600 Series
LED Explosion Proof Hand Lamp

ericson.com/xp-hl

- cETLus listed for U.S. and Canada
- Class I & II, Div 1 & 2, Groups C, D, F & G
- 120VAC or 12VAC lamp with NEMA plug or XP plug
- Lightweight construction
- Aluminum anti-spark guard
- Non-conductive, high-impact glass reinforced handle
- Accommodates 16/3 to 14/3 types SOOW, STW, STOW cable
- High-impact tempered glass globe threads directly into specially
designed guard assembly
- Handle construction provides superior strength and high
insulation properties
- Heavy duty aluminum guard features swivel hook

LED Wide Area Work Lighting

[ericson.com/wide-area](http://ericson.com/wide-area)

- cULus listed for U.S. and Canada
- Outdoor and wet location rated
- Strong integral mounting magnet
- LED efficient lighting technology
- 50,000-hour lamp life expectancy
- Standard models come wired with NEMA 5-15 plugs
- Optional feed-thru connectivity via secondary cable or receptacle with flip cover
- Driver located in main body
- Low temperature start at -30°C
- Color temperature 5000 Kelvin
- Product customizations are available upon request

LED Heavy Duty Work Lighting

- Outdoor and wet location rated
- Feed-thru connectivity option
- Low power utilization and consumption
- Lightweight, heavy duty and impact resistant material
- Fixture can be mounted horizontally overhead or vertically on the ground
- 50,000-hour lamp life
- Battery backup available with -EL part numbers

1006 LED Baylite
High Bay Lighting
ericson.com/1006

- cETLus listed to UL153, CSA C22.2 No. 250.4
- IP64 damp location, under roof rated
- No fan design, die-casting aluminum heat sink to speed up heat dissipation
- Isolated constant current power supply.
- 6000V surge protection
- Can be daisy-chained up to 6 units (Up to 28 units for 277V models)
- Stainless steel guard for impact protection
- Color temperature 5000K
- Limited 1-year warranty
- Tripod Stand available with PN: T1006
- Meets OSHA requirements in CFR 1915.82(b) for shipyards and CFR 1926.405(j)(1) for construction
- Recommended placement on a 30x30 max grid to achieve OSHA min 5fc

1000F-EMBT Series
Emergency Egress Lighting
ericson.com/1000f

- Battery backup provides 90 minutes of illumination upon power failure
- Battery automatically charges when fixture is connected to power
- 3600 lumens on AC power, 1800 lumens on battery backup
- Dual 26W fluorescent bulbs
- Switch operates for testing and main on/off
- Internal battery/ballast combo
- Impact resistant, high-temperature lens with inner surface prisms for optimal light diffusion
- 4000K color temperature, 82 CRI
- Mounts with magnet base
- Includes safety hook for tethering

Ericson

4323 Hamann Parkway Willoughby, OH 44094
UV-C Perma-Kleen™ Cart
Mobile Surface Disinfection Unit

Purpose
- The Ericson UV-C Perma-Kleen Cart (PK-CART) system is designed to offer direct disinfection exposure to surface areas utilizing Ultraviolet Light (UV). A mobile solution that SAFELY disinfects surfaces of germs (viruses and bacteria) that is repeatable and reliable. Learn more at www.ericson.com

Cart Design:
- Rugged industrial cart w/Qty 4 rubber caster wheels
- Anti-microbial powder coating of frame
- Corner Bumpers on frame to protect against impact during transport
- Complete frame barrier to protect UV-C bulbs
- E-Stop on all units
- PIR Motion detection sensor(s) prevent unsafe operation
- Environmental Rating: IP56
- 2 year warranty on components
- Made in USA

Bulb Design:
- Low pressure mercury vapor HO quartz bulbs
- Shatterproof coating on all bulbs
- Bulb life of 12,000 hrs
